Major General William F. Train
Commandant, U. S. Army War College
Carlisle Barracks, Pennsylvania

Dear Bill:

Representatives of the Agency who have visited the Army War College have noted that the material assembled for the class includes suggested readings on intelligence and the Central Intelligence Agency. It occurred to us that it might be of some assistance if we provided you with what we consider to be a bibliography listing a representative selection of reasonably accurate publications on these subjects. Our Office of Training has prepared such a bibliography and it is enclosed herewith.

We would also be happy to furnish the Army War College with bibliographies in specialized fields such as counterinsurgency, guerrilla warfare, espionage, etc. The CIA has screened all such publications in the public media over the years and is in a position, we believe, to provide a reasonably accurate analysis of the literature which can be classified as valuable. Trusting this will be of some use to you.

Faithfully yours,

Marshall S. Carter
Lieutenant General, USA
Deputy Director
